

# A-Maize-ing Math

By: The Mommy Teacher

## IDEAS:

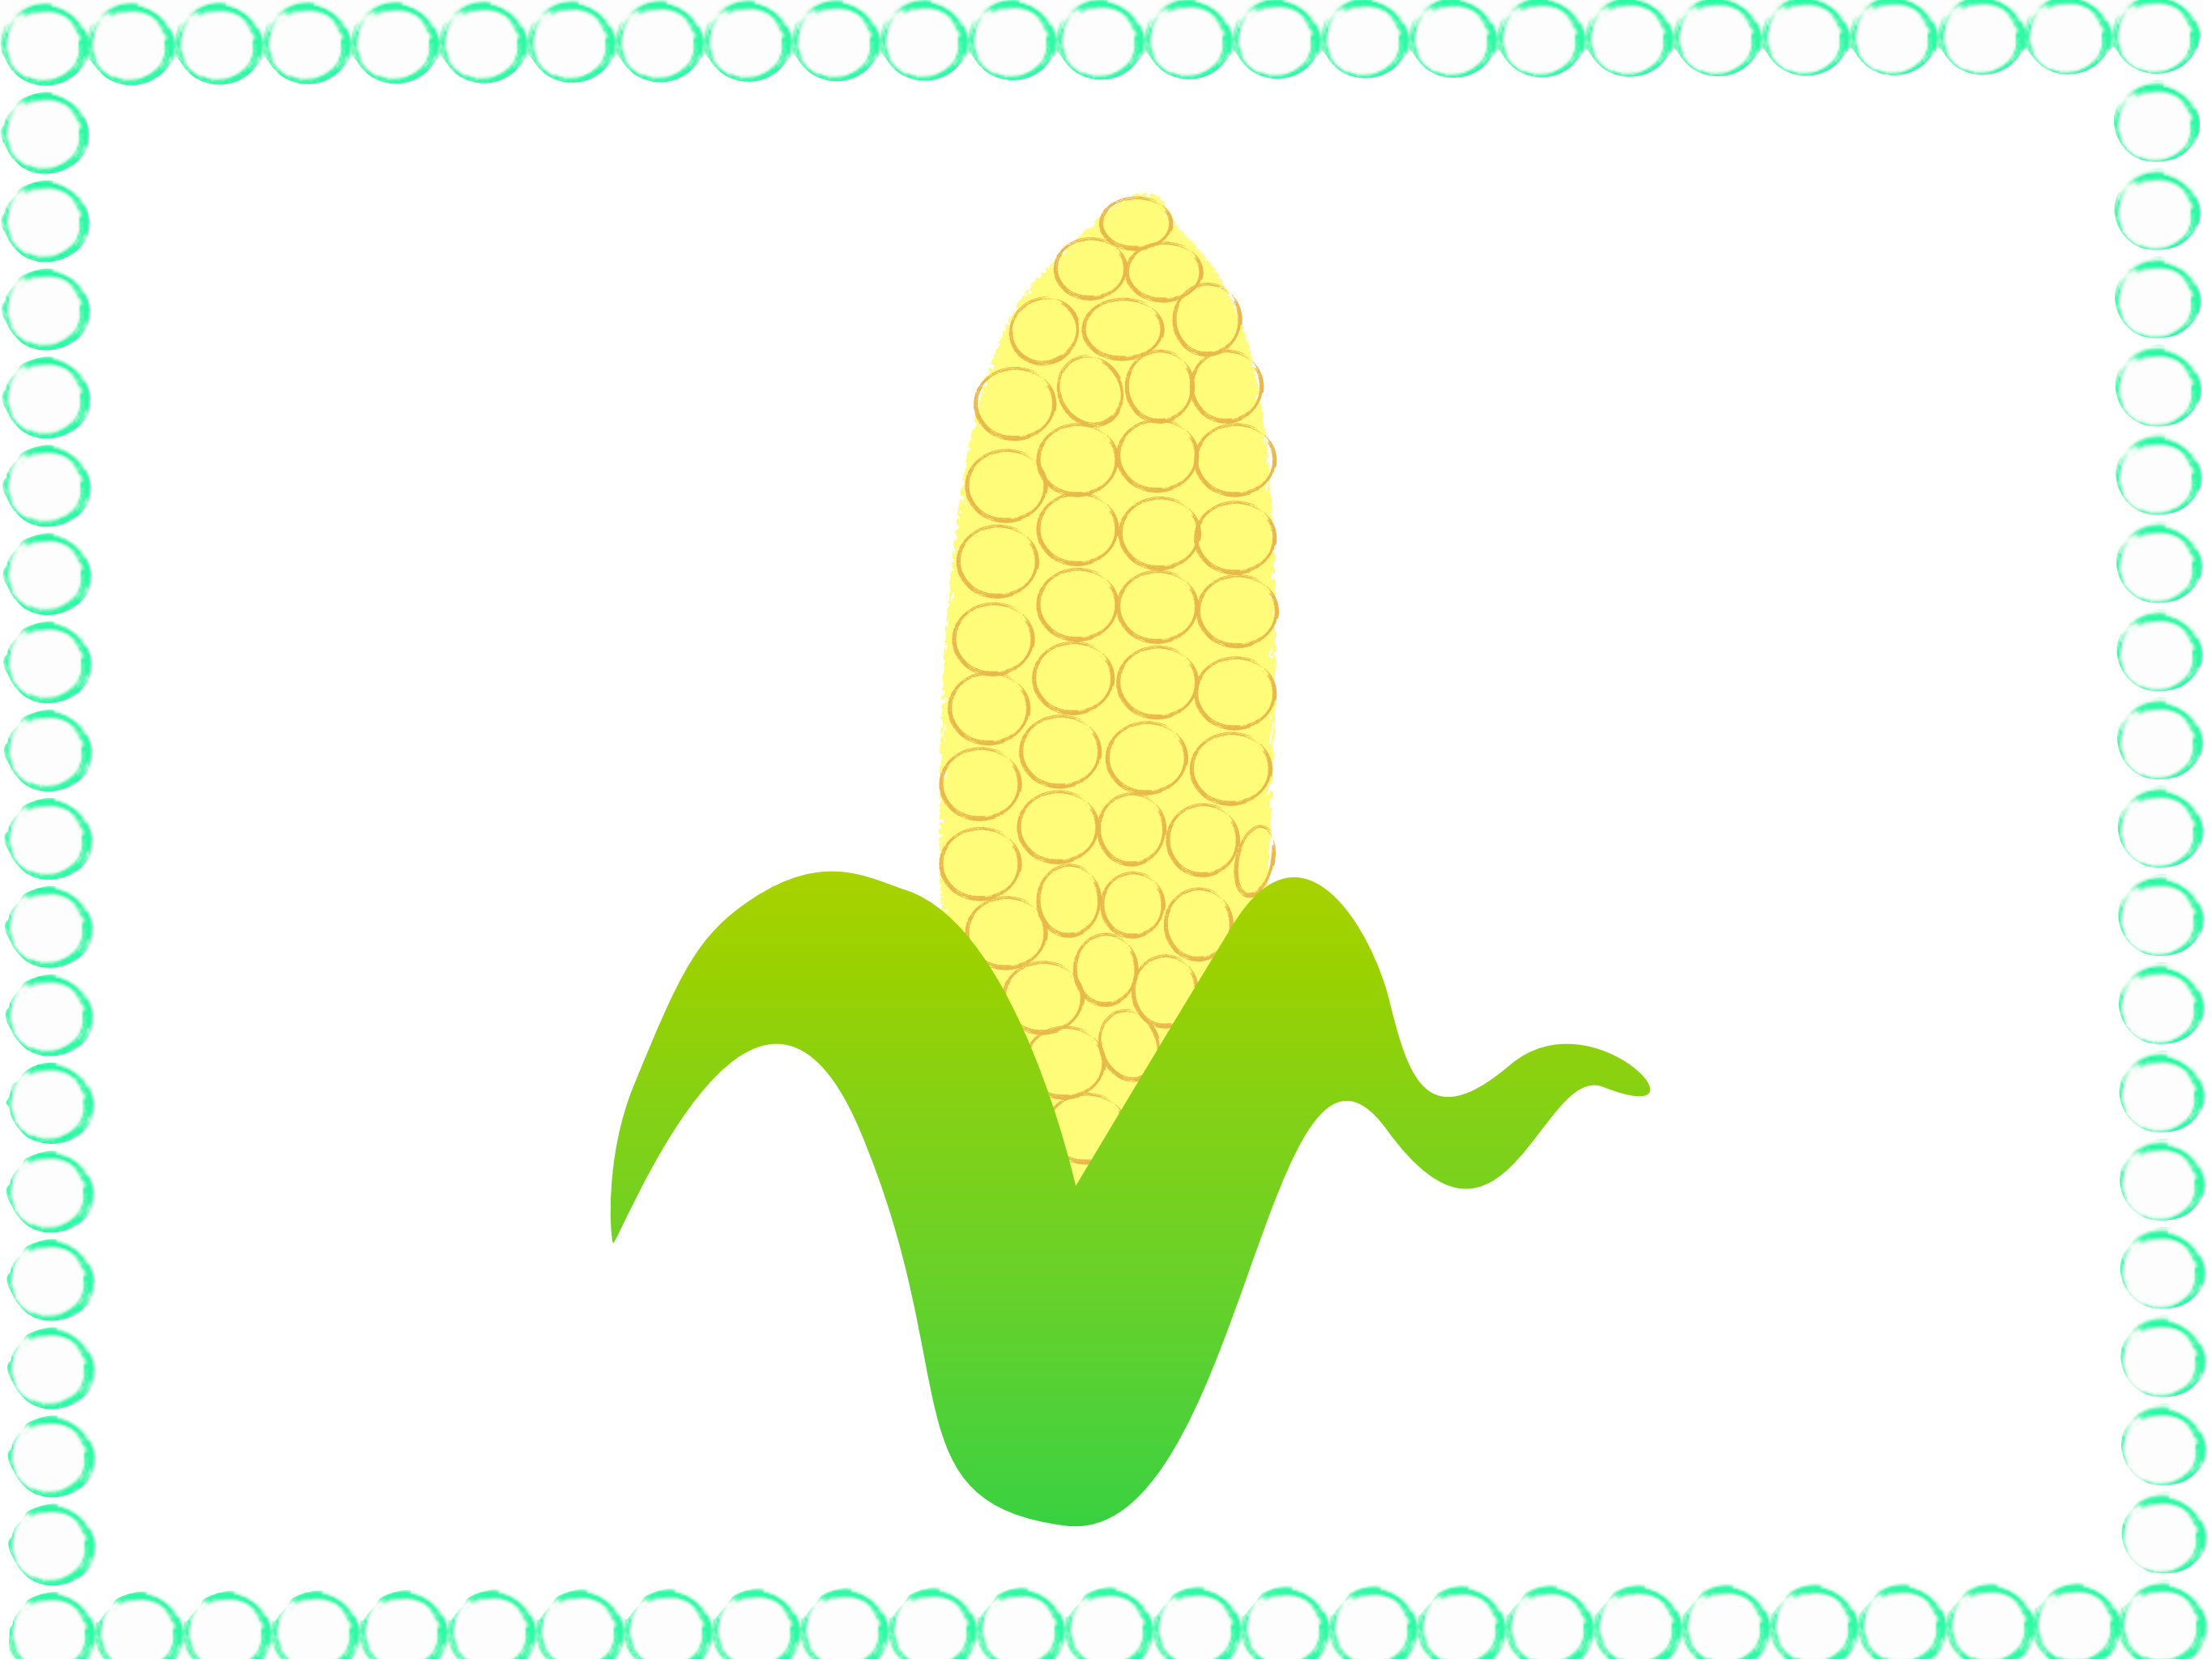

Practice counting by filling the numbered ears of corn with candy corn.

Practice one-to-one correspondence by filling in the circles on the big ear of corn with pop corn seeds.

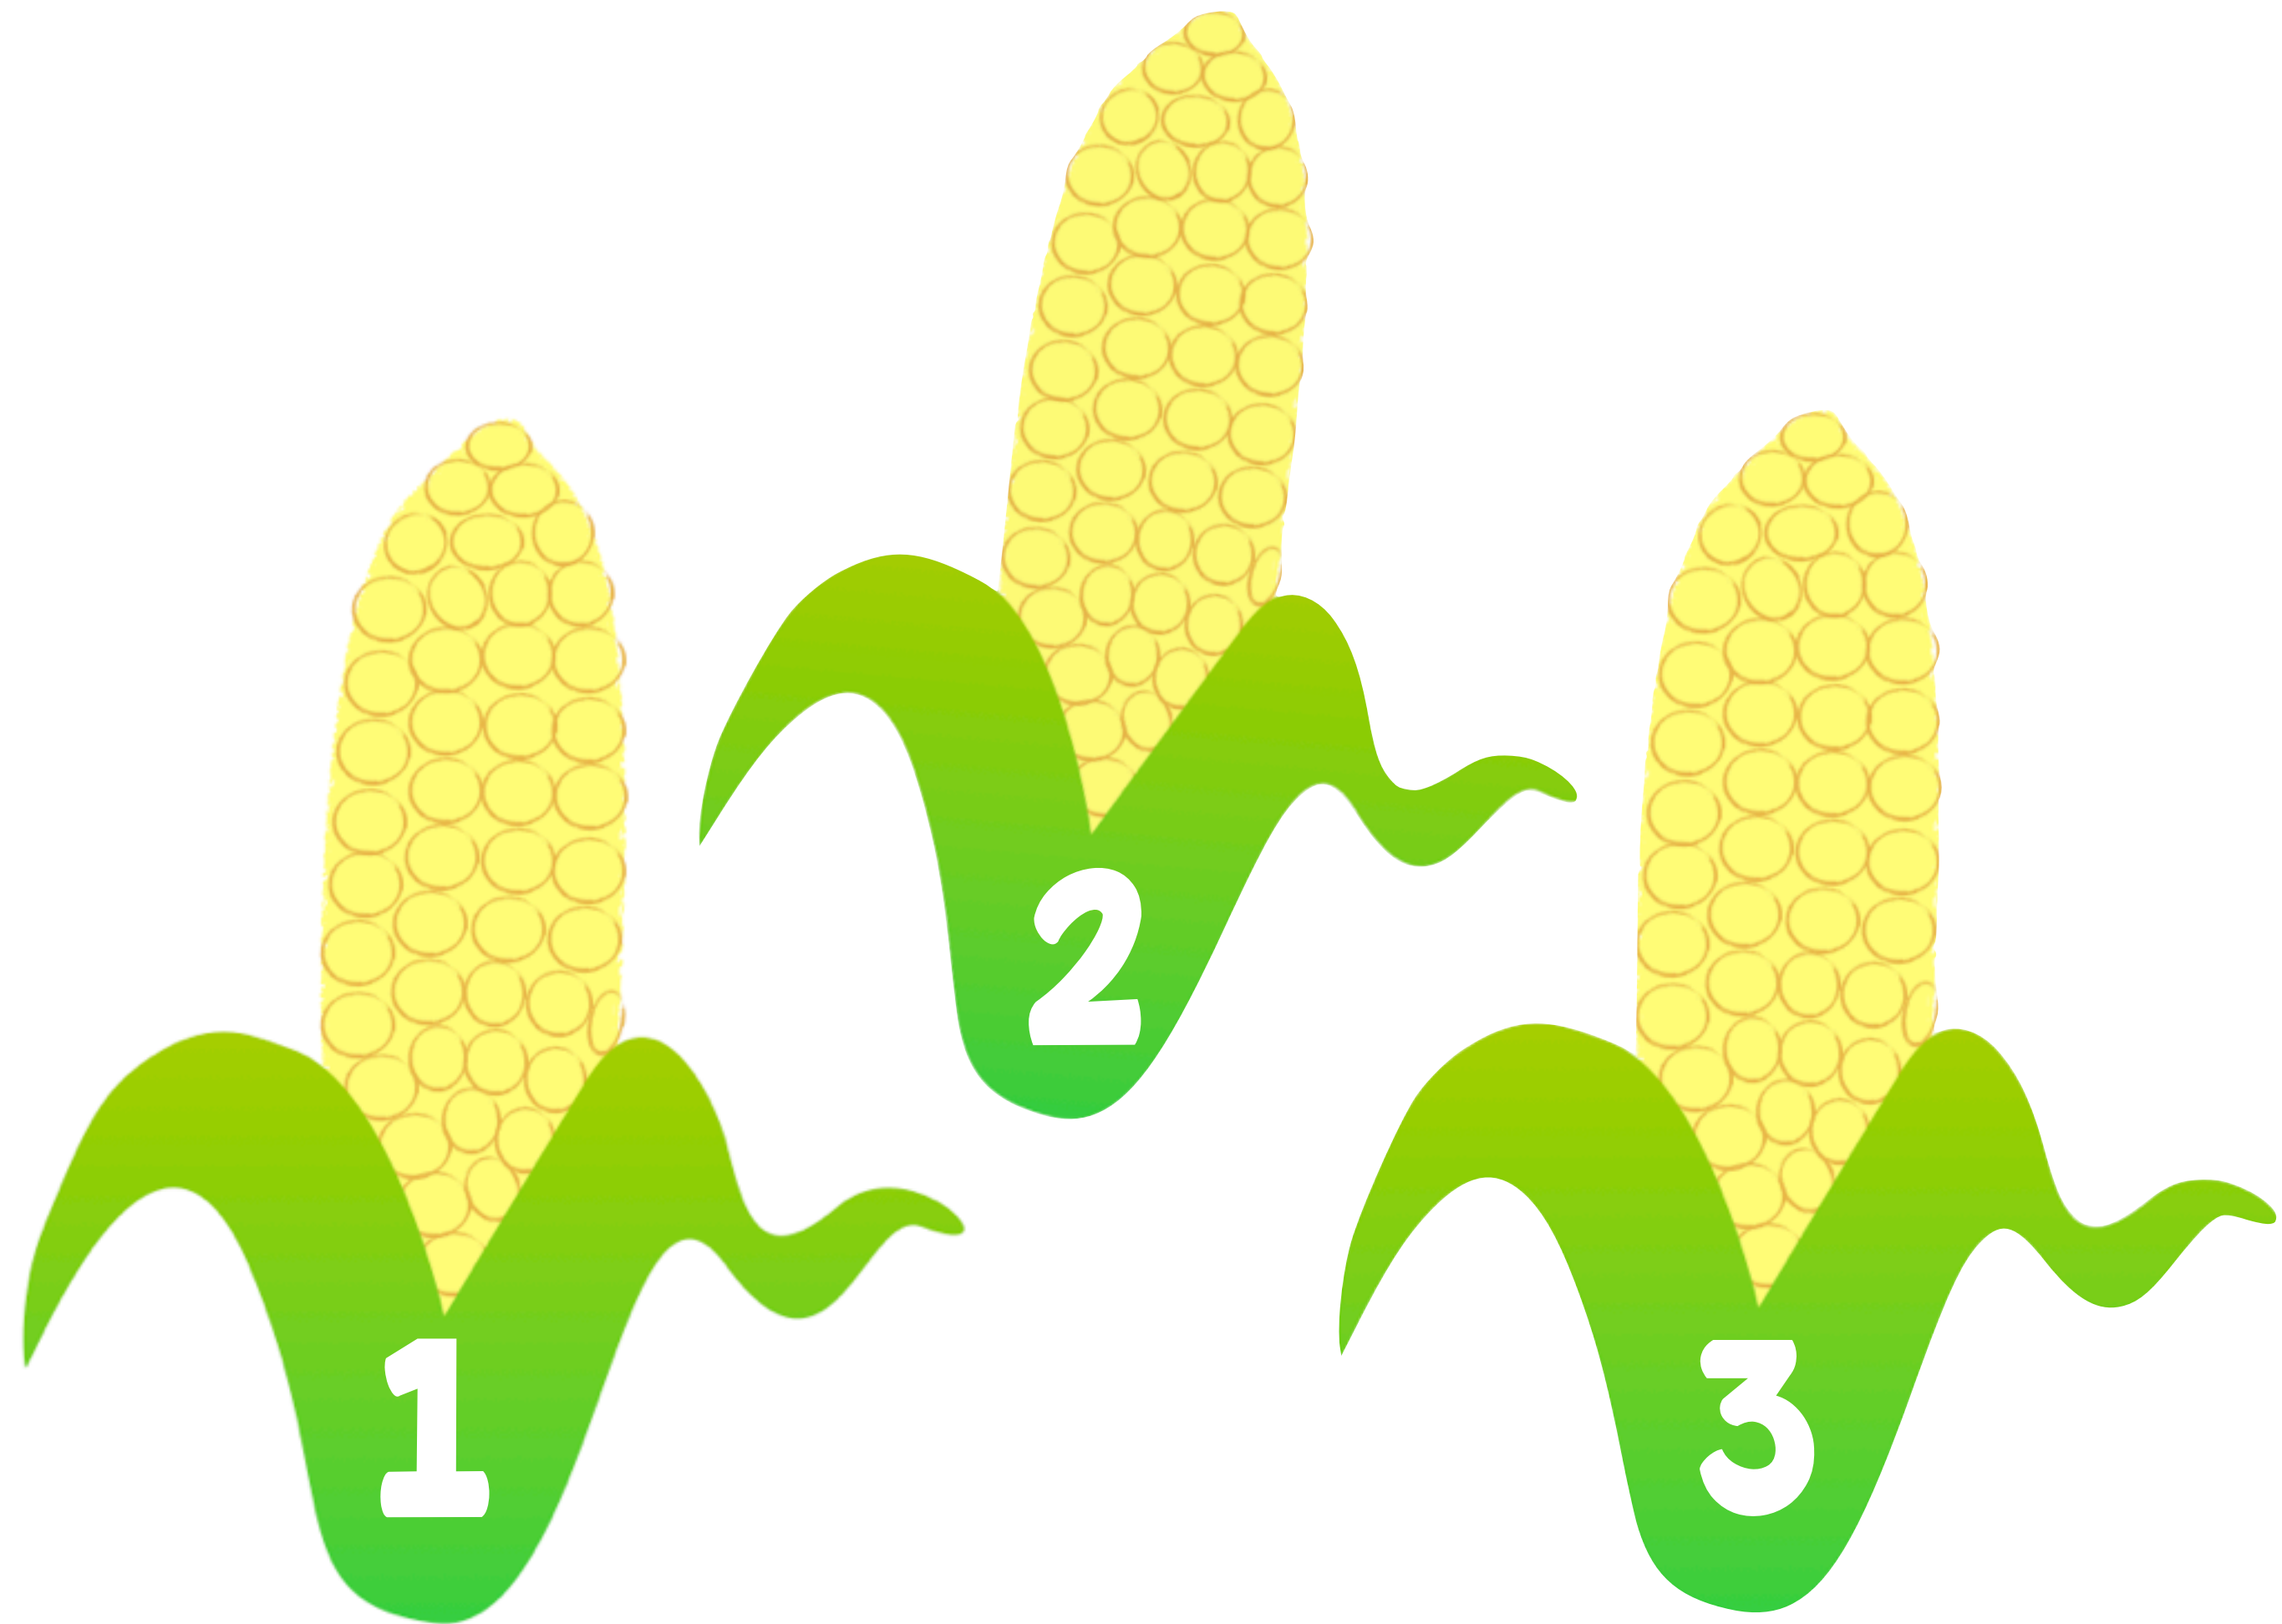

Practice addition by filling the page that has two ears of corn with a manipulative and writing how many there are all together.

Practice comparing quantities circling the ear of corn with the highest amount.

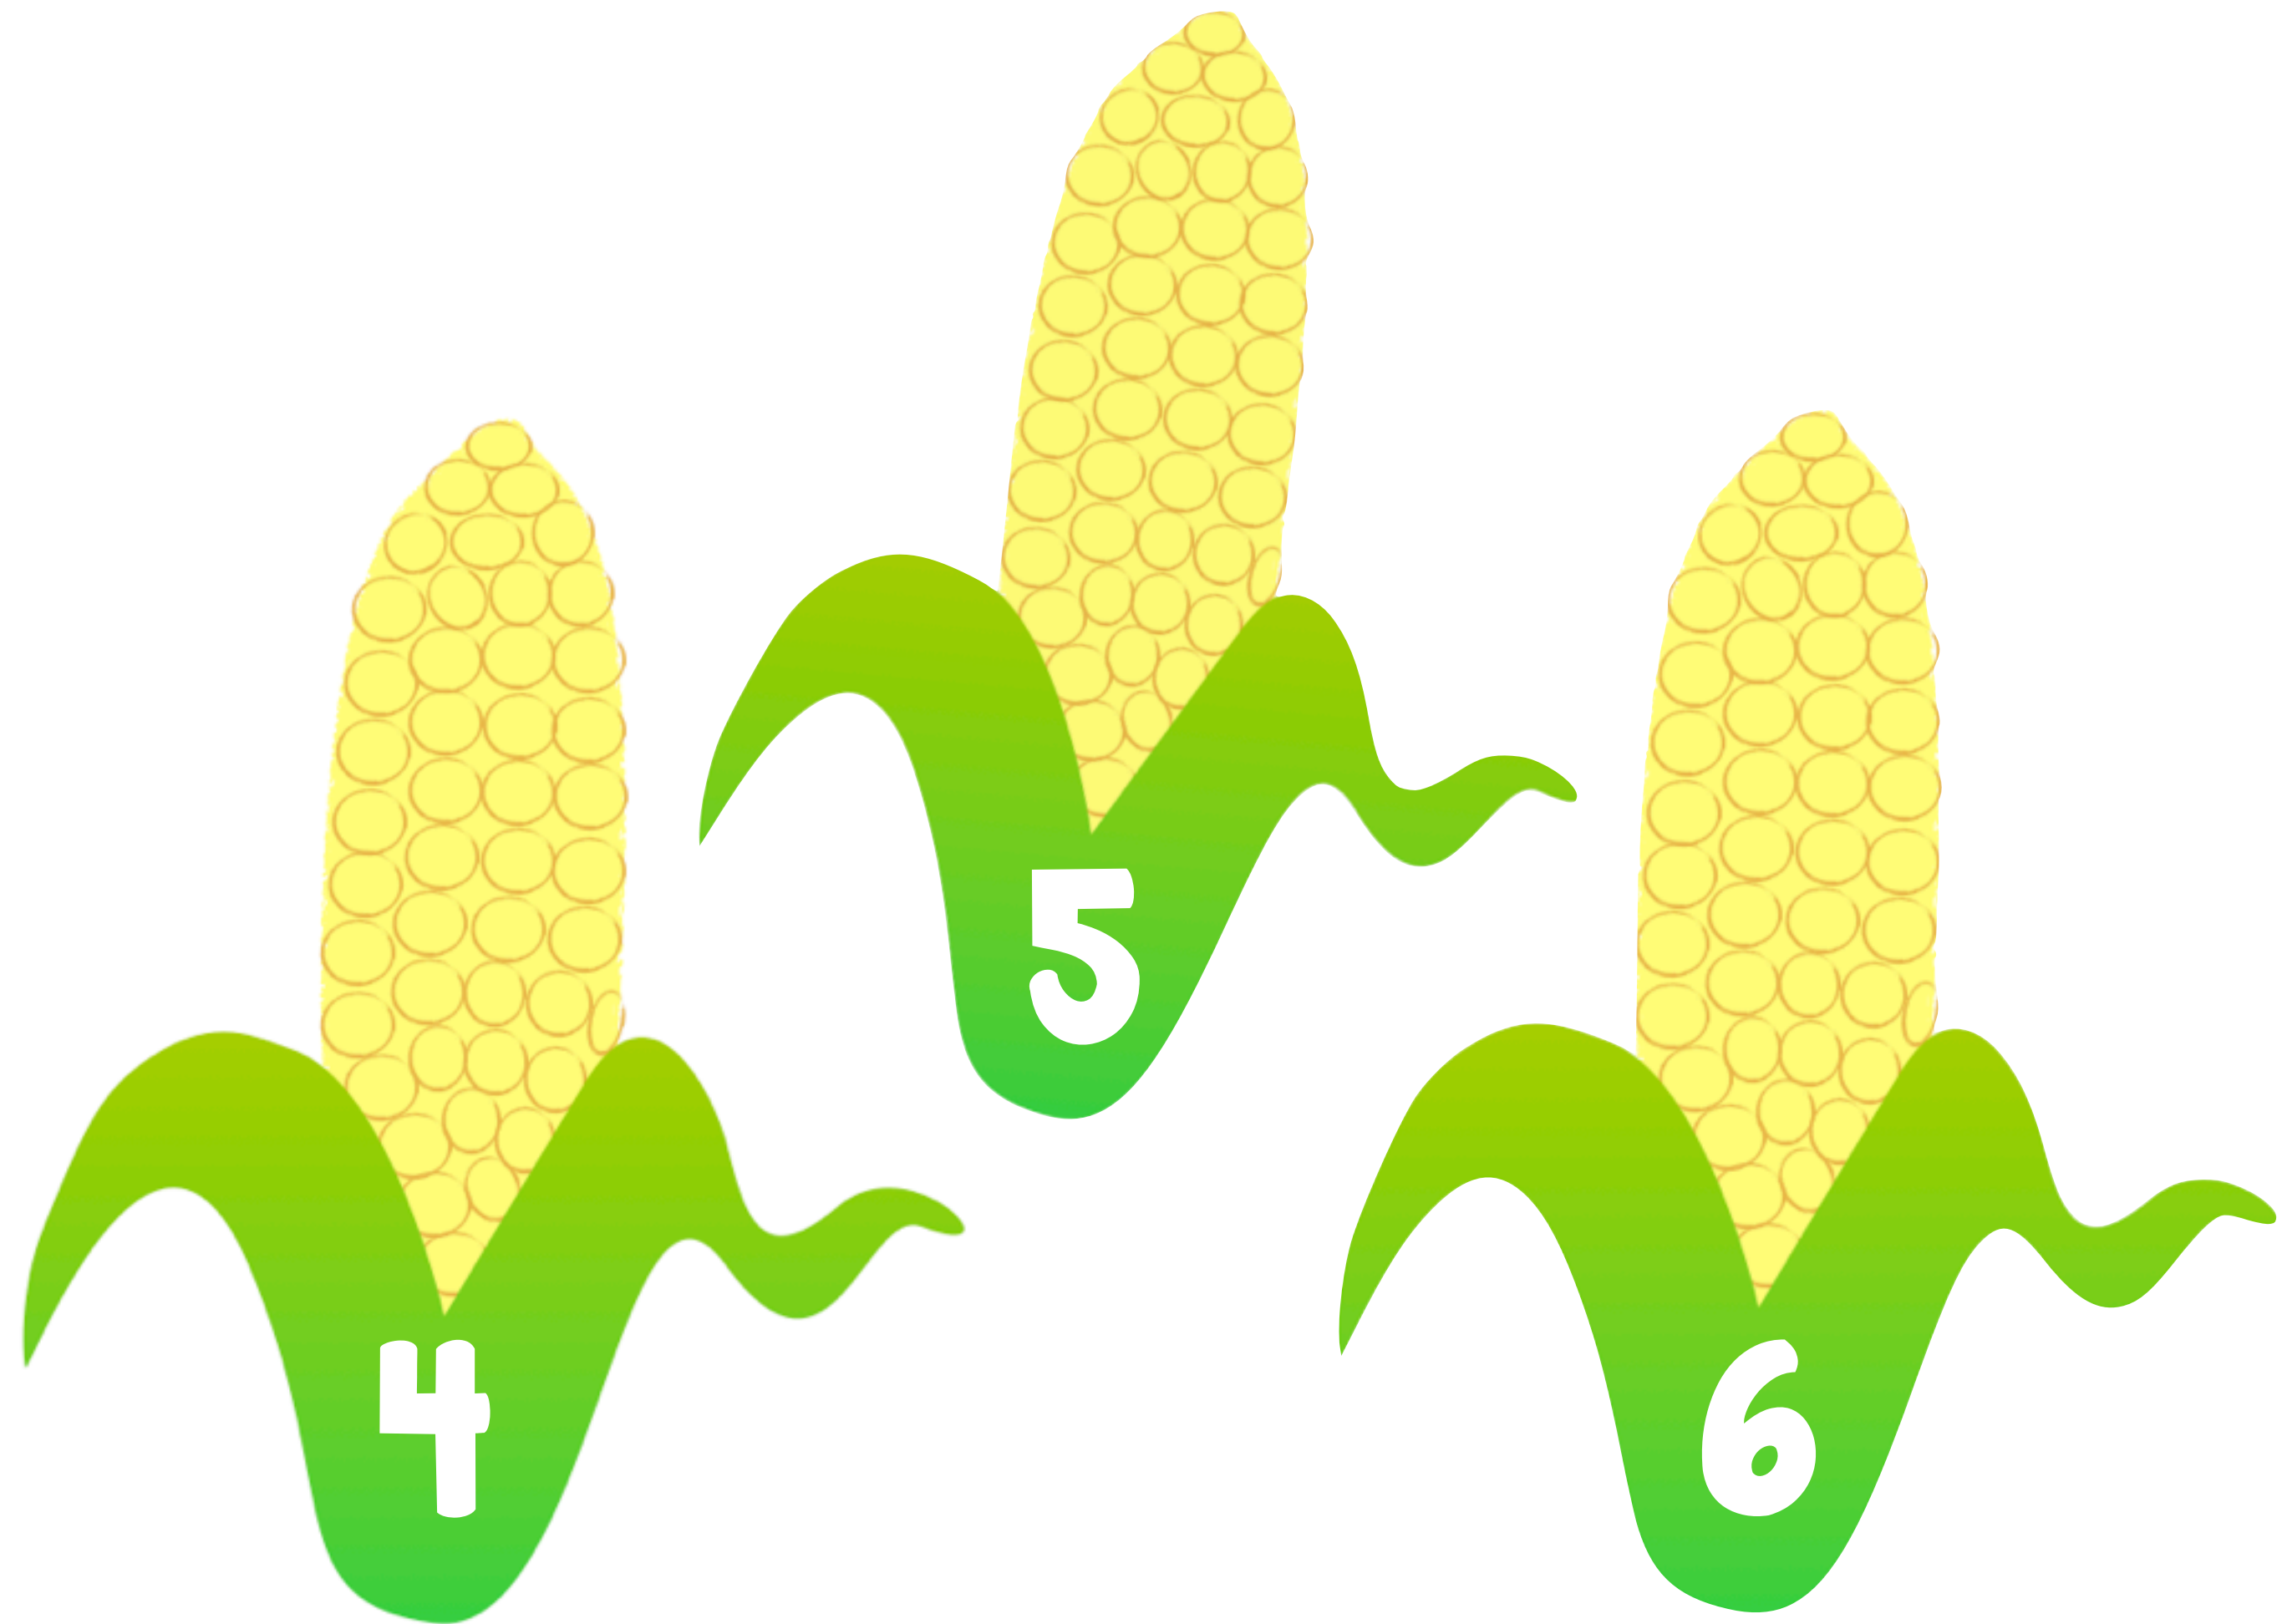

Or come up with your own idea!

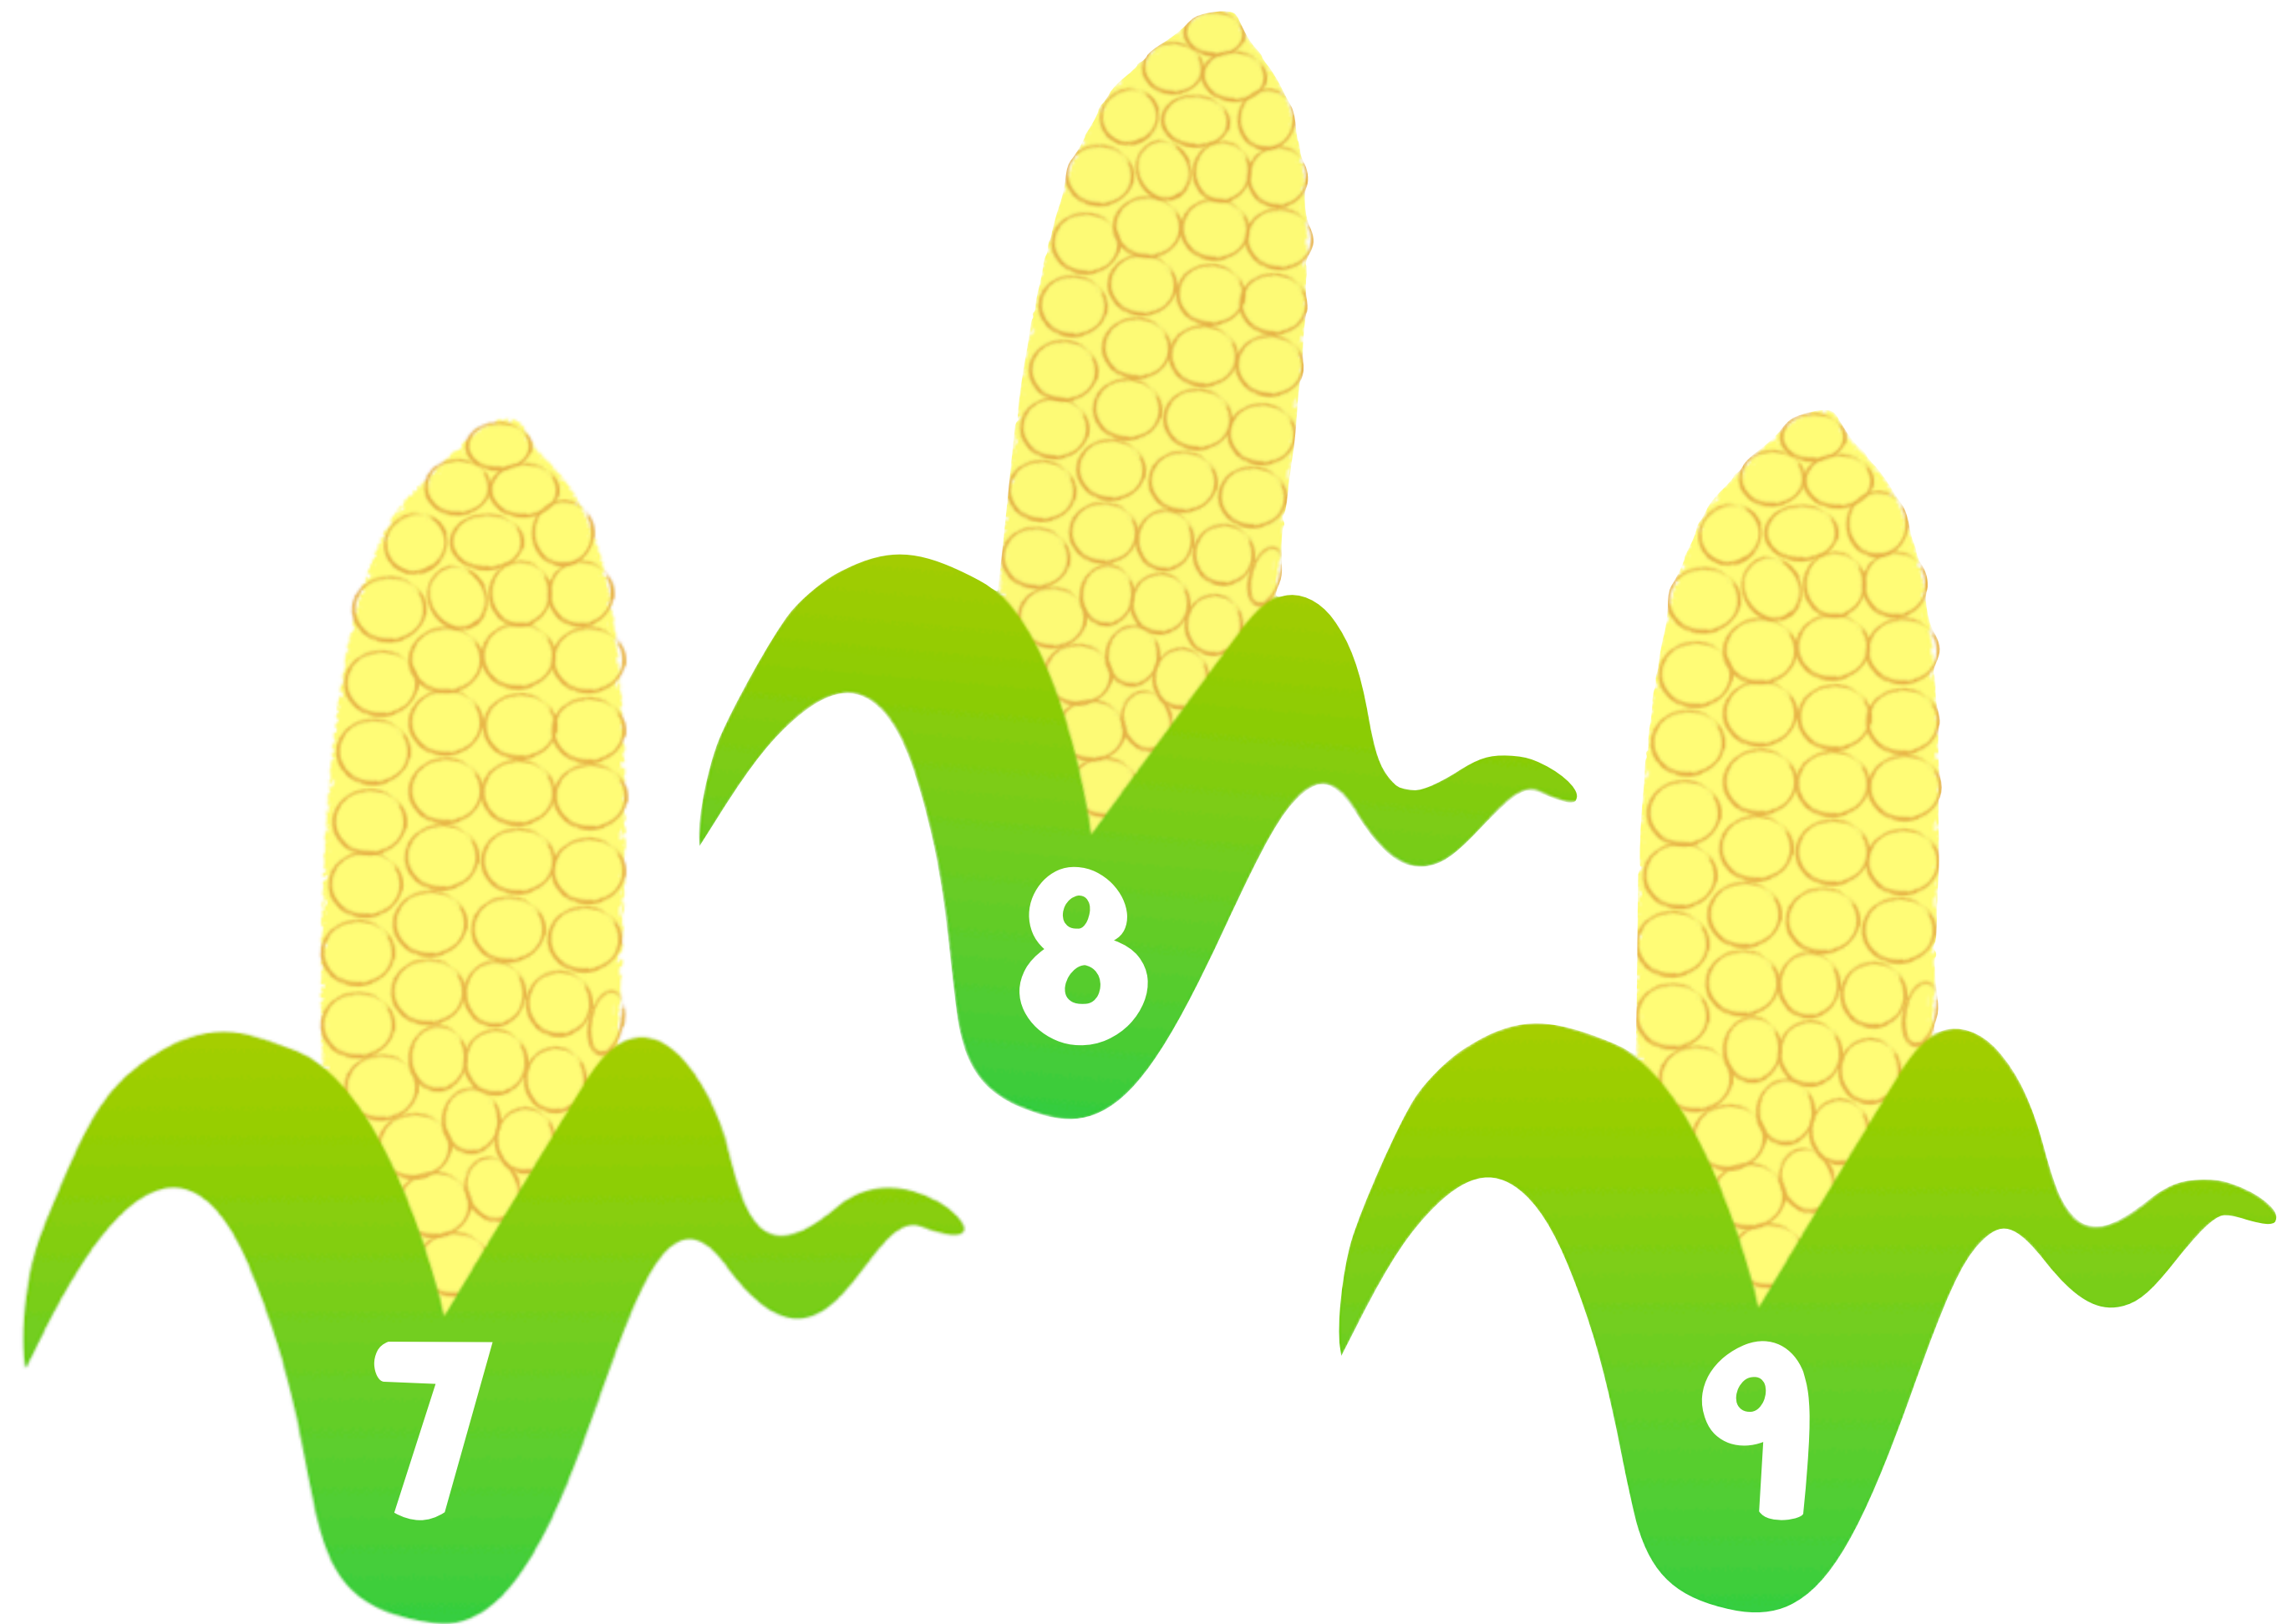

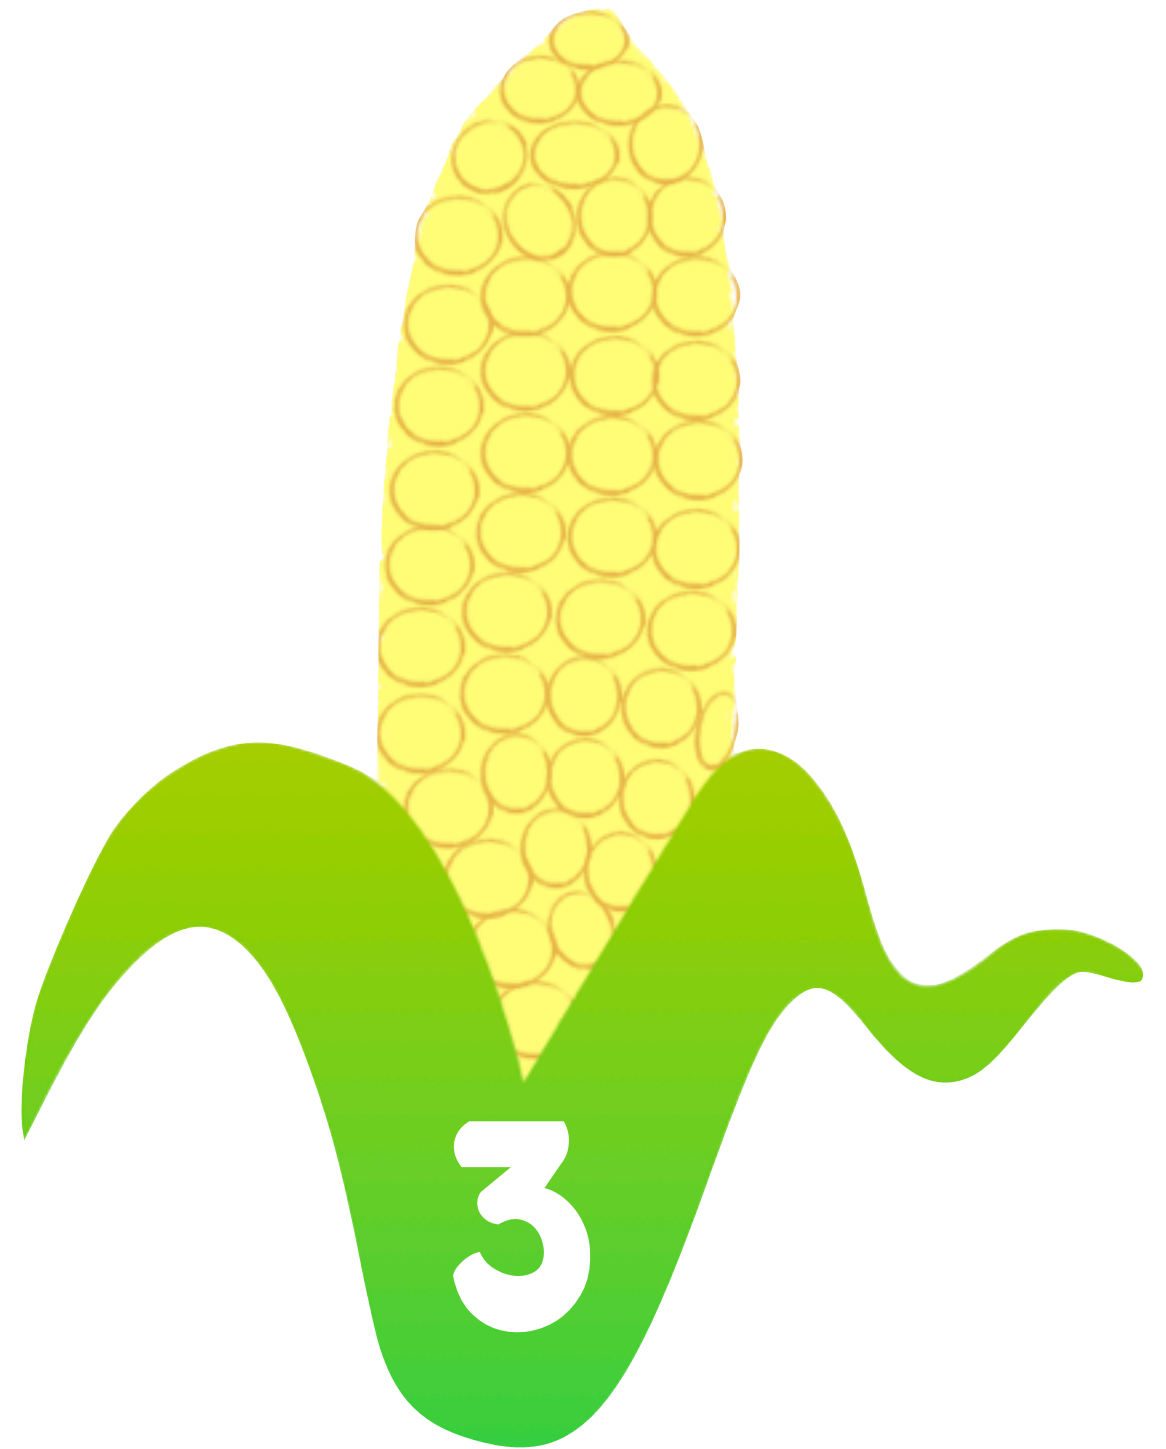

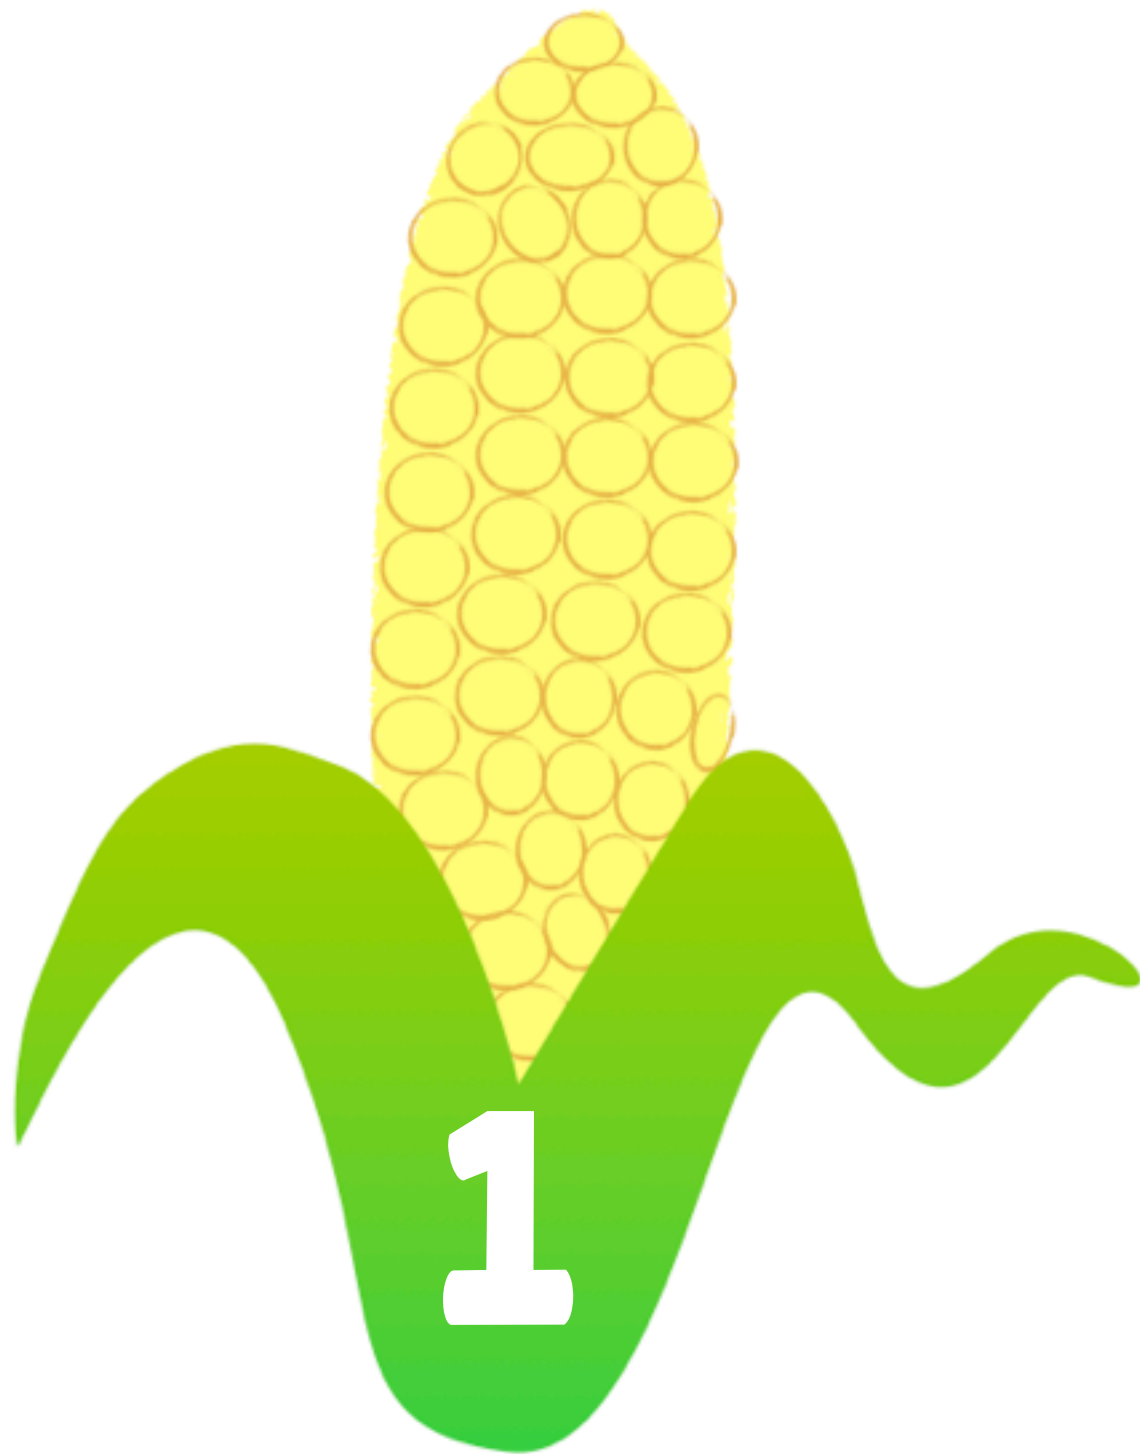

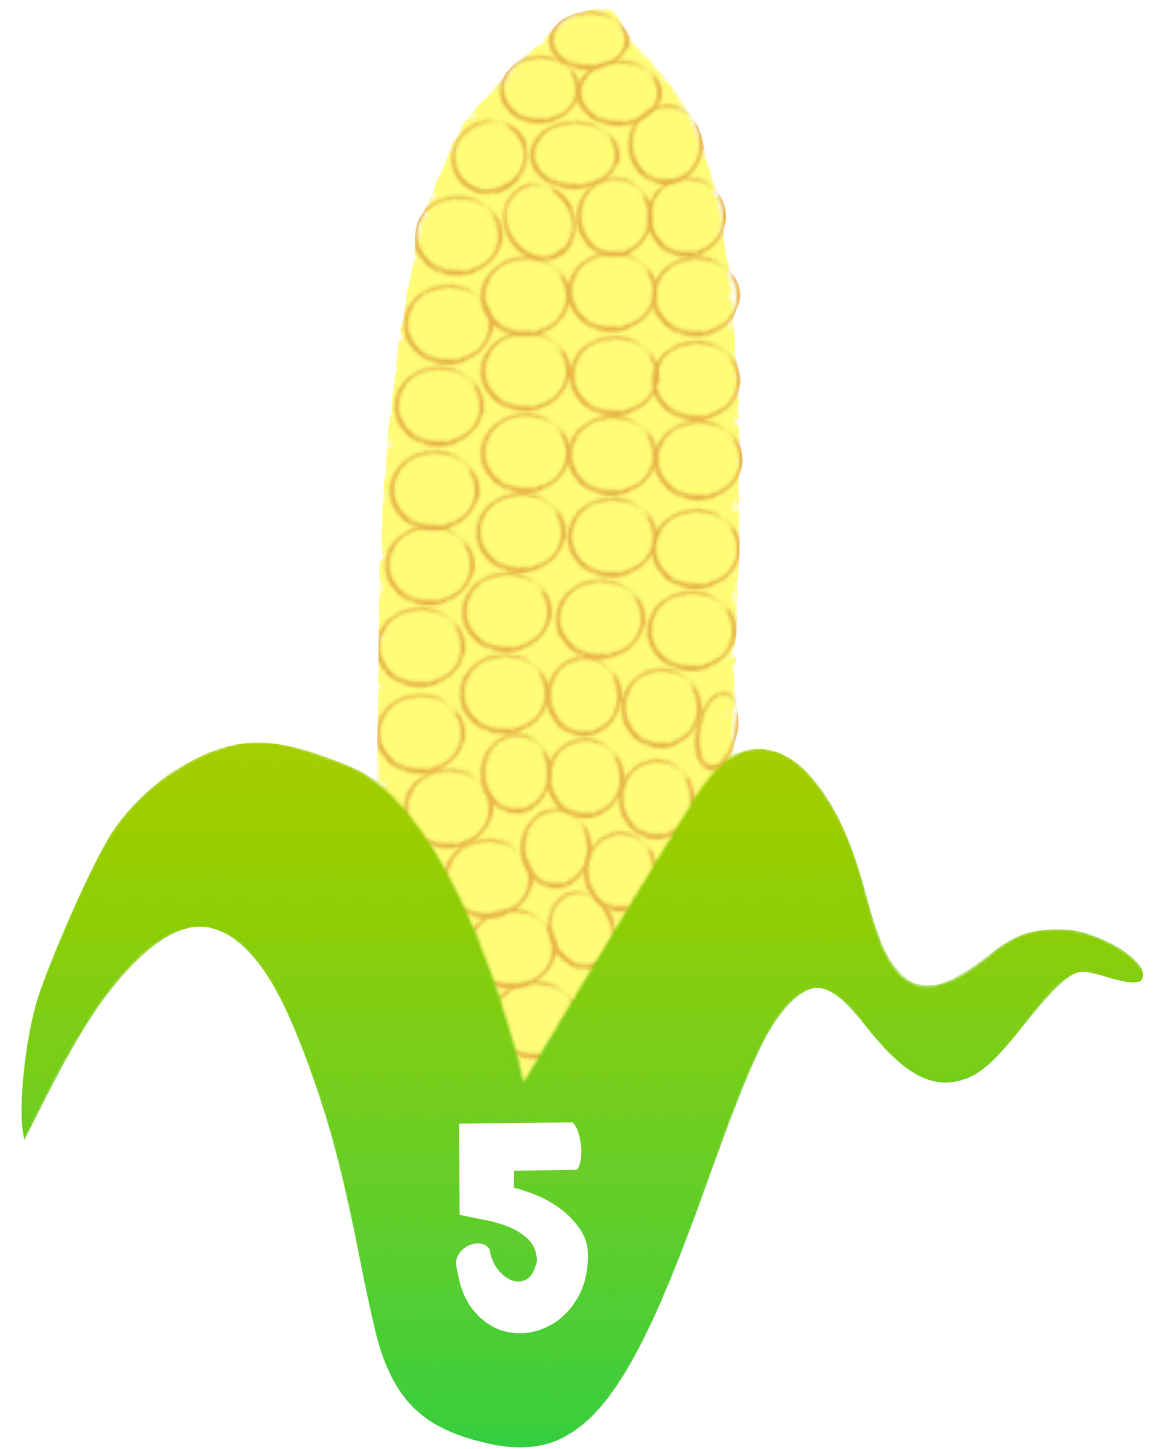

**How many all together?**
